Installation instructions PC-DMIS – Q-DAS Converter

Dear customer,

you have ordered the PC-DMIS Q-DAS Converter software at Hexagon or you want to perform a test installation.

The software may only be installed on a **64-bit computer** with **Windows 7 or higher**.

The software is available for download at the following URL:

https://downloads.ms.hexagonmi.com/PC-DMIS_Solution_Modules/PC-DMIS-Q-DAS_Converter/Version_5

Please perform the following steps to download the software on your PC-DMIS computer:

1. Check the PC-DMIS version currently being used.
2. Start the download via left click on the file.
3. Unpack the zip archive on the PC-DMIS computer.
4. Start the file "PCDQDAS_Setup.exe" with administrator rights to install the software. Then follow the instructions in the set-up procedure.
5. After successful installation start PC-DMIS with administrator rights and open any measuring routine you like.
6. Start the Q-DAS Converter once with administrator rights via the related Windows start group.
7. You can then use the software with user rights. Both PC-DMIS and the Q-DAS Converter must be started with identical permissions.

Required access rights

PC-DMIS and the PC-DMIS Q-DAS Converter requires full access to the areas described below in the file system and registry:

PC-DMIS Q-DAS Converter

Registry:

- "HKEY_CLASSES_ROOT\PCDLRN.Application\" and all subkeys
